Real time aggregation of stores to head office

Centralized master data management

Track stock movement

Run offers and promotions based on data

Head office can view consolidated sales, customers, inventory, payment and expense information for any location with our innovative real-time data synchronization mechanism, as if it is a local store. No need of day-end process or manual upload, download or reconciliation. Save time and bring consistency by eliminating stores' efforts from creating masters such as products, pricing, discount and offers. All can be controlled and managed from head office and will reflect across stores automatically on real-time. Head office can set different product catalog, pricing or promotions for different region/stores as well.

Move stock between stores or your warehouse with stock transfers, and quickly perform inventory lookups across all your sales channels. Transfer centrally or at store level in real time. Automatically generate purchase orders and transfer orders based on inventory levels.

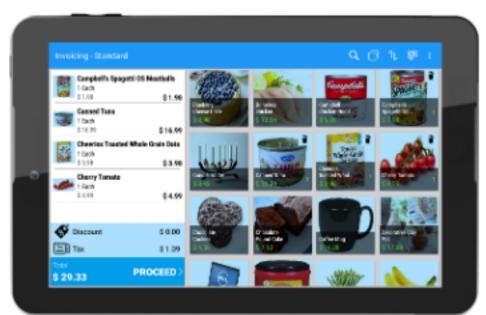

Analyze consolidated customer information to get more insight about your customers' buying patterns, preferences etc. This will help you to tailor offers and promotions for across the stores or region wise to increase customer footfall and revenue.

DIGITAL BILLING

Just billing system lets your cashier take orders and generates tax invoices using any device like mobile, tablet, desktop computer or large screen POS devices. Thus, providing you the flexibility to reuse your existing hardware or start with low investment using smart phone or tablet.

SMS, WhatsApp, email or print invoice/quotation for your customers. Select a template from our preconfigured professional looking and tax certified invoice formats.

DIGITAL PAYMENT

One of the important aspects to cater to more customers and make them comfortable is to get generous with the various modes of payments. The more options in modes of payments your customers get, the more they find it convenient to pay and spend at your store.

With Just Billing, we have provided multiple options of payments such as cash, credit cards, debit cards, digital wallet, gift voucher, or any other and you can configure it all by yourself.

CENTRAL CRM TO BOOST SALES

Just billing Head Office consolidates all the customer information from across the stores to analyze buying patterns, preferences and detailed insights about your customers. With centralized customer profiling, you can tailor offers and promotions.

Also the information can be used to send your customers personalized greetings on their birthdays and anniversaries and many more to build better relation with your customers.

LOYALTY AND OFFER INTEGRATION

Running multiple offers and loyalty programs at the same time? Our POS lets you embed all the loyalty, promotion, coupons, discounts and other offers from the head office directly. Once added, offers will be automatically applied to the bills as applicable.

Customer mobile number will become the loyalty number and no need of plastic/magnetic loyalty card. Know your regular customers, offer them special deals and loyalty programs to retain more customers.

REPORTING TO DRIVE YOUR BUSINESS

Do you want in-depth data on how many customers you are serving every day? Which outlets are selling the most and which are not? Which is the most popular item on your menu and which is the least selling item? Where are you getting most of the orders from?

Our QSR Chain POS fetches reports that answer these questions instantly. Our reporting and analytics tool also lets you customize any report as per data requirements.

INVENTORY & DEMAND FORECASTING

Keep track of inventories across multiple sales channels with real-time, seamless syncing of stock. Save time with easy product updates across all stores and sales channels. Use automated reordering based on specified stock levels, and adjust reorder points and restock levels to make sure you never have too much or too little stock on your shelves.

Move stock between stores or your warehouse with stock transfers, and quickly perform inventory lookups across all your sales channels.
